'The writing on the Wall'

How can the arts continue to enliven worship?

'Liturgy has drawn on the arts for centuries, as the visual, musical, dramatic and poetic arts have served to create the structure and language of worship. But how can the arts continue to enliven worship? Using real life examples of dance, visual art, music and poetics incorporated into worship, this lecture will explore ways in which the disciplines of the arts serve to inform the practice of worship, and how worship itself may be seen as a performed art'.
